FOR YOUR SERVICE AND SUPPORT NEEDS***

MOTOROLA PREMIER SERVICE PARTNER

The Motorola Premier Service Partner (PSP) is the highest level of service relationship attainable by a Motorola Service Channel Partner and it represents the greatest level of Motorola/Service agreement and interdependence.

As a Motorola (PSP), we have been authorized by Motorola to perform maintenance, installation and warranty services for select Motorola products such as two-way radio systems, consoles, and subscriber units. Being a Motorola (PSP) means that we have met Motorola's high level of service requirements including Certified Service Center Accreditation and compliance with Motorola's internal Environmental Health and Safety policy. In addition, Motorola requires that a minimum number of a Premier Service Partner's technicians achieve certification and meet rigorous training requirements necessary to perform certain services on both new and existing Motorola radio systems and subscribers.

Some of the Benefits of Utilizing a Motorola PSP include:

- Unrivaled manufacturer expertise
- Rapid, local support backed by centralized resources
- 24x7x365 emergency service available
- Simplified post-warranty service support
- Direct access to qualified parts, manufacturer knowledge and experience which limits customer downtime
- Layered technical support every time you need it for swift resolution of performance issues
- A dedicated fleet of fully equipped service vehicles

There is no one better qualified to support and repair Motorola hardware than a Motorola Premier Service Partner's highly trained technicians.
